History

In the year 1276, after its failure four years ago, the vildkaarls regrouped and tried again to take power.

But the presence of witcher [Putnam Pitch](#), who was ordered by the ruler of the isles to end the threat that the organization was after explaining to him that in the past they had been monsters, stopped their plans. Since the witcher, gathered enough allies to end the threat, among them the best warriors of Skellige and another witcher Boone of Skellige, from the School of the Bear who was also on the islands during that time.

Originally, the plan of the Vildkaarls led by Hrolf after [Artis](#) natural death due to old age, was to commit a series of massacres with which to terrorize the population and threaten them that those massacres would continue if the power was not given to them, knowing the mysticism that surrounded them, exploiting that advantage, but what they did not expect, is that Skellige's government responded in that way, sending two witchers and their best warriors against their organization.

The organisation after the so-called Battle of the Highlands was not destroyed, but reconstituted and reformed in a way similar to the fate of the Mejays in [Hannu](#) long ago.
